

Fatrar char is the nice tourist place near Kuakata beach. From Kuakata traveler may visit the Fatrar Chor. Fatrar Chor is the part of the Sundarban forest. Fatrar Char is also known as Fatrar Bon. As the Fatrar Char is the part of Sundarban so it is mangrove forest. Fatrar Bon is fairly big forest in Kuakata. There are many Timber trees available here. The tree of this forest is very hard and strong. And the wood of these trees are very long lasting and also costly. A wood business is started at that place and these woods are supplied in all over the country.

At first traveler have to rent an engine boat near the beach. It may take about an hour boat journey from Kuakata sea beach. After the thrilling journey traveler will reach at Fatrar chor or Fatrar bon. There is a nice

canal in that place and forest beside the canal. Now traveler should enter at the forest after taking the permission from forest camp. There are many wild birds, some monkey, some rabbit, deer and some other animal found at that jungle

The name of a char, 'Fatrar Char', rising in the heart of the Bay of Bengal under Kalapara thana of Patuakhali district, is known as Sagar Kanya. Although its name in the forest division is 'Fatrar Forest'. This fascinating place near the Kuakata beach is the Fatrar Char. If the Kuakata leaves the sea's extensive sandstones, it will fall in the eyes of a small stream of ghalajajal, a river and a populated sea awakening in the mouth of the sea, the forest of Fatrar Char. It is a protected mangrove forest. Its area is more than 997507 acres. It is the second largest breathtaking forest in the country after the Sundarbans.

From the Kuakata beach to the southwest, passing through the Bay of Bengal and the canal takes only an hour to the trawler to go to the grazing. For at least one hour in the forest, do not forget to ride in the boat. Although it is a small mangrove forest, you will feel like you are in the Sundarbans. That's undoubtedly a great feeling.

However, there is no permanent arrangement for tourists in this spectacular way. You just have to get two hours to rotate the char. However, subject to the permission of the forest department, you can stay in the rest house. In that case, the chance of being a witness can be seen by seeing a variety of phenomena of a deep forest awakening on the ocean. From November to March only you can enter Fatrar Char.

Due to the wonderful combination of saline and sweet soil, this forest has many rows of extinct species of trees, livestock and reptiles. There are many small canals flowing in the green forests of the forest, bamboo cranes, rest houses of forest department, sweet water pond, picnic corner. Dense forest mixed in the ocean beach In the vastness of the sea, the green forest attracts the tourists.
